

Standard Arena	Small Area	Metric Conversions
		<p><b>60 meters = 196.85 feet</b></p> <p><b>40 meters = 131.2 feet</b></p> <p><b>20 meters = 65.61 feet</b></p> <p><b>Feet to meters:</b> multiply feet by .3048</p> <p><b>Meters to feet:</b> divide meters by .3048</p>

Score	Performance Level
10	Excellent
9	Very good
8	Good
7	Fairly good
6	Satisfactory
5	Marginal
4	Insufficient
3	Fairly bad
2	Bad
1	Very bad
0	Not performed

Each movement is scored on a scale of 0 (not performed) to 10 (excellent). Some of the test movements and all of the Collective Marks have coefficients associated with them which means they are worth two or more times the points assigned, the reason for this varies. Total points for the test are added up and noted as a percent to the total possible number of points for that test. A percentage of 65% or higher is generally thought to mean the horse is ready to move up a level.
